### SUMMARY

**Full Stack Developer** with over 2 years of experience in end-to-end application development and team leadership. Skilled in source code management, complex logic development, and designing scalable solutions. Successfully led and handed over 18+ projects, developing essential modules such as HR, LMS, CRM, and Ticket Management systems from the ground up. Eager to leverage my frontend and backend expertise to drive efficient, user-centric IT solutions that meet high-impact business needs.

### TECHNICAL SKILLS

Laravel (PHP)	HTML/CSS/JavaScript
jQuery	MySQL
AWS/GoDaddy	Git/GitHub
React Native	Figma
React	CodeIgniter

### CERTIFICATIONS

- Full Stack Java developer | 2022
- I-Senso Robotics | 2020
- Participation in an International seminar | 2020

### Additional Information

- Languages:** Hindi(native) and English(fluent)
- Professional Development:** Regularly updating skills through courses, technical blogs, and documentation to stay current with new tools and frameworks.

### PROFESSIONAL EXPERIENCE

#### Software Engineer

Feb '25 - Present

#### Z-Aksys Solutions PVT LTD

Sanpada, Navi Mumbai

As a Software Engineer, I collaborate with cross-functional teams to develop and deploy innovative software solutions, leveraging my expertise in Laravel, CodeIgniter. I contribute to the full software development lifecycle, from requirements analysis to testing and deployment.

#### Team Lead

Mar '22 - Feb '25

#### HYPLAP IT SOLUTIONS PVT LTD

Vashi, Navi Mumbai

#### Programming and Application Development

- Achieved up to a **40% increase in operational efficiency** for clients in real estate, healthcare, and e-commerce by architecting secure, scalable applications leveraging Laravel and PHP's MVC, ORM, Middleware, and Eloquent features
- Creating RESTful APIs to enhance data exchange and **improve system interoperability by 35%**
- Enhanced application functionality and user satisfaction by incorporating third-party services such as Razorpay and Paytm for payment gateways, and Google Maps for geolocation, resulting in a **30% increase in user engagement**
- Presented secure, scalable applications with Laravel and PHP for real estate, healthcare, and e-commerce sectors, leading to a **30% increase in operational efficiency for clients**

#### Process Optimization & Debugging

- Improved database structures and queries for applications managing large datasets, leading to a **30% enhancement in data retrieval and system performance** using MySQL as the primary database management tool
- Collaborated on bi-weekly sprints following Agile principles, achieving a **95% on-time project delivery rate** and a 25% increase in project delivery rate by leveraging stand-ups and Scrum methodologies
- Conducting comprehensive code reviews and implementing testing strategies, reducing post-deployment issues by 70%
- Managed Git version control to elevate code quality and foster seamless collaboration, **effectively implementing branching, merging, and code reviews for optimization**
